SKILLS SUMMARY

- **Programming Languages:** Java, JavaScript
- **Frameworks:** React Js, Flutter, Node Js, Angular Js, Express Js, Bootstrap
- **DataBases:** MySQL, MongoDB
- **Soft Skills:** Leadership, Problem-Solving, Adaptable, Team Management

TRAINING

- **GeeksforGeeks | PROFILE** May 2024
 - Completed an intensive interview preparation program focused on Data Structures, Algorithms, and System Design, enhancing problem-solving and coding skills.
 - Solved real-world coding challenges and optimized solutions for efficiency, focusing on improving time and space complexity.
 - Practiced key technical interview scenarios, including algorithm design, whiteboard coding, and debugging, gaining confidence in high-pressure situations.
 - Collaborated with mentors and peers to refine communication, analytical thinking, and teamwork skills essential for technical and HR interviews.

PROJECTS

- **E-Commerce Platform | React, Node & Express js, Mongodb | GITHUB** Nov 2024
 - Designed and developed an Amazon-inspired e-commerce store using MERN Stack.
 - Secured user authentication (JWT, OAuth) and encrypted payment processing.
 - Implemented real-time search, category filtering and personalized recommendations.
 - Ensured fast load times and smooth navigation with React & optimized APIs.
 - Added a chatbot or real-time support system for user assistance.
- **Hotel-Management | React, Node & Express js, Sql, Google Map API | GITHUB** Jun 2024
 - Developed a fully dynamic and responsive hotel management website using React, following modern web design principles.
 - Integrated essential features like room booking, availability tracking, user authentication, and payment gateways.
 - Constructed reusable React components to ensure streamlined development and scalability.
 - Optimized the website for responsiveness across devices, improving mobile and desktop experiences by 20%.
- **Event Management | Flutter, Node & Express js, Mongodb | GITHUB** May 2023
 - Created a dynamic platform to manage events like weddings, birthdays, and celebrations.
 - Incorporated services such as catering, decoration, and entertainment with secure payment and real-time booking capabilities.
 - Enhanced visibility through SEO optimization and social media integration, driving customer engagement effectively.
 - Adapted the design for compatibility across mobile, tablet, and desktop devices.

ACHIEVEMENT

- LeetCode: 150+ Questions Solved | [PROFILE](#)
- GeeksForGeeks: 250+ Questions Solved | [PROFILE](#)

CERTIFICATES

- Data Structures and Algorithm | [GEEKSFORGEEKS](#) Aug 2023
- Full Stack(Mern) Development Bootcamp | [UDEMY](#) May 2023
- Flutter Android Development Bootcamp | [UDEMY](#) Sep 2024
- Cloud Computing | [NPTEL](#) Nov 2024
- Generative AI for Everyone | [COURSERA](#) Feb 2025

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.8	Phagwara, Punjab 2022-2026
Trident Public School Intermediate PCM; Percentage: 84%	Muzafarpur, Bihar 2019-2021
D.A.V Public School Matriculation Percentage: 88%	Muzafarpur, Bihar 2018-2019
